

# NORTHCOTE GALLERY CHELSEA

Press Release June 2014

## Moorland, Breeze and Breaking Wave Rebecca McLynn June 2014

Northcote Gallery is delighted to present an exhibition of works by Rebecca McLynn.

Landscape, detail in nature and the quality and atmosphere of the elements inform McLynn's oil paintings on canvas, mixed media works, photographs and works on paper

McLynn's subjects are the west coast of Ireland, far north-west of Scotland and the Atlantic islands of the Hebrides. Also Arctic Norway and California's Big Sur. She is drawn to particular types of landscape - raw, wild, desolate, and lush enchanted places rich in damp moss, foliage and colour.

McLynn captures the essence of a place, using a hint of figuration to draw the view while the composition allows the viewer to contemplate their own reminiscences of place and time.
